A place more romantic and attractive could hardly be desired for a recruiting camp than that on the Hights of Weehawken, where the tents of the Sharpelecters are pitched. From this elevated plateau the eye takes in at once a charming picture of the metropolis, with one river for a foreground and another for a background, and long stretches up and down the Hadson. In the afternoon, when the hights themselves are thrown in deep shadow by the weeds behind, the sunshine fairly glorities the city, the rippling waves of the river, and the vessels and steamers that pass in view. Mounting a long, steep flight of steps, from the ferry, the visitor does not flight of steps, from the ferry, the visitor does not reach the top before he hears the sharp crack of rifles from the target ground; and, once at the summit, he sees a broad avenue closed in at sides and back by lines of white tents. At the head of the avenue is pitched the tent of Major Rowland, the officer in command, and in front of is from a tall staff floats an American easign and streamer. Scattered about in groups, talking, sitting or walking about, are the famous riflemen in their stylish green cloth coats and Anatrian-gray fants. First and last there have been nearly a thousand of them in quanters here, but all have been sent to the banks of the Potomac, except the parcially formed company that Capt. George G. Hastings is recruiting. The first modest attempt to recenit 150 sharpshooters has grown so as now to recruit 159 sharpshooters has grown so as now to embrace a moject for a whole brigade, and in fact there have been reported to Col. Berden at Washington no less than thirty-six companies, formed or forming in different States. As yet he has only forming in different States. As yet he has only 800 men, or eigh. Lompanies, at Camp Burnaide, but more are already on their way and others just ready to start. Major Rowland received word yesterday that the second company from Michigan, 100 strong, under the lead of Capt. Stuart, left Lansing on the 29th alt., and the third company, from Detroit, within a few days. What a noble contribution from one State, this! Three hundred splendid rifle shots, strong, soher, stalwart men, each inured to rough State, this! Three hindred splends due to such strong, sober, stalwart men, each inured to rough life, and capable of picking off a rebel officer at 300 yards with deadly skill! It will be a burning chame on our military authorities if material such as this is spoiled by short-splited mismanagement. The men have enlisted with the distinct understanding that they are to be drilled as skirmishers, and to that they are to be drilled as shranshers, and to fight af er their own way on the wings of the army. Any attempt to hamper them with the formalities of beavy infantry tactics, to force them to light as a regiment instead of in squads, or to arm them with nuckets, would not only destroy their peculiar effi-ciency, but perhaps disorganize them as completely as the Fire Zouaves.

as the Fire Zonaves.

Col. Berdan's men have already got into work on the Potomae. Week before last the enemy made demonstrations of an advance on Fort Corcoran, so an order was dispatched to Col. Berdan to send a company of his sharpshooters there. They had not been long at the fort before thirteen of the enemy appeared in sight at a distance, but they did not tarry long, for some of the men "drew bend" upon them and at the first fire killed four, one officer and three privates. Last week three companies participated in an advance movement, and behaved with such composure and discipline that an Aid-de-Camp was cent to the Colonel with the thanks of the General-in-Chief.

At the Weehawken recruiting camp there are some 40 men at present, but more are expected within a day or two, and the whole number will then be forwarded to Camp Burnside.

GEN CARRIAGES FOR GEN. FREMONT.

There are now in course of manufacture in this city, gan carriages, calesons, battery wagons and forger for over 200 10-pounders and 20-pounders Parrot guns. Of these, enough vehicle; for 100 pieces have been manufactured for the Government, 80 for the State of New-York, and 25 for the Army of the West, under command of General Fremont, Upon these carriages over 300 men are employed in the manufactory of Mr. Stephenson, who has the contract, according to which so many pieces are required to be completed each week.

RECRUITING.

Quite a lively business was done in the way of recruiting yesterday, and the indications that the State quota will be rapidly filled are very promising, indeed there is scarcely a doubt but that more than the required number could be obtained. Since the completion of harvesting about the country, the hands released are flocking to the regimental organizations nearest the scenes of their recent labors. The Com-mander-in-Chief, with Adjutant-General Hillhouse,

mander-in-Chief, with Adjutant-General Hillhouse, is expected to return from Albany to-day.

REORGANIZATION OF THE TWELFTH.

Three hundred men have been enrolled already for this regimen, and will be sworn into service to-day. Col. Weeks is making efforts to retain the three-months-campaign uniform of the 12th, in which he will no doubt be aided by the State authorities. The officers engaged in reorganizing this command desire in the outset to inform volunteers or soldiers that no bounty will be paid for recruits, and those who will not rally around their country's flag withed their country's flag with who will not rally arou out the inducement of \$3 or \$4 held out by some officers are not wanted in this regiment. The 12th served its three months with credit, and the officers intend to maintain the good character of the reg ment at all bazards.

It is known, however, that no person has been authorized, as yet, to recruit for the regiment. No real cause existed for the resignations mentioned, except the enforcement of discipline, and the expectation that every officer would cheerfully perform his duty to his country while in its service. THURTY-SEVENTH REGIMENT N. V. S. M. This regiment was organized by the Governor on the 7th inst., and the line officers duly commissioned on the 18th. on the 18th. An election was held at the regimental headquarters, No. 55 West Thirty-third street, for nemajuriters, No. 33 West Inity-third street, for isld officers, which resulted in the unanimous elec-tion of Charles Roome as Colonel, and Chaudius L. Mouell as Lieutenant-Colonel. The regiment has not yet selected a Major. This regiment was start-ed by Cols Roome and Monell soon after the com-mencement of our national difficulties, when our city was left in a defenseless and unprotected state, by the withdrawal to the seat of war of a very large number of our volunteer militia. The principal ob-ject then was to raise a regiment for the protection of the city in case of need. So successful was the recruiting for this regiment, and so successful was the material of which it was being formed, that the original plan was abandoned, and a permanent organization under the State Militia haw was determined on. Quietly since that time the regiment has been going on, filling up its ranks with gentlemen of intelligence and respectability, until the eight companies now number, in the aggregate, about 5-00 rank and file, with every prospect of obtaining their complement of 800 men by the first of November.

The officers were to a large extent taken from the 7th Regiment in which excellent military school

REPUBLICAN COUNTY NOMINATING CONVENTION. -The Designtes chosen at the late Republican primary elec-tions for the purpose of nominating a Sheriff, County Clerk, and four Coronery, met in Convention last evening at the rooms of the Republican Central Committee, comer of Broadway and Twenty third street.

The Hon. F. A. Conkling was called to the chair, and Mesers Shaw and Donaldson were chosen Secretaries. The Chairman directed the Secretaries to call the various Wards, and make a list of the Delegates who reported themselves. It was found that there were contestants from the Seventh and Twentieth Wa: do, but the latter withdrew. The centestants from the Seventh Ward were referred to a committee appointed by the

conversation of the lobby members, who crowded into the seats set spart for the delegates, a motion was carried that all persons except members of the Convention retire from the hall. This caused a general movement toward the door, and in a little time the lobby members had distributed themselves among the various saloons in the neighborhood, where they patiently awaited the result of the deliberations of the Conven

on. Order having been restored a motion was made to adjourn, which was clearly lost. The Committee on Credentials was then directed by the Chair to retire. Several motions were made in regard to taking a recess, and finally one was carried

to take an intermission of fifteen minutes.

At the expiration of the time, Messes, Keyser Brennan Southworth Chapman, Bleakley Sherwood, and Boorst, of the Committee on Credentiass, reported that they had given the representative from the VIIth Ward a hearing, and had decided upon admitting both sets of delegates, the ten delecates to choose five of their number to vote for nominees. After some discussion upon the subject, the report of the Committee was adopted.

A motion was carried that the Wards be called it order and that each mention the names of candidates for the office of County Clerk. The Secretary had proceeded as far as the Eighteenth Ward, and the names of Messrs. Dilts, Hoxie, Ketcham, Biggsley, Kirby, McPherson and Gridler had been mentioned, when a delegate opposed the further calling, o the ground that it was occupying valuable time, as some of the

Wards had infined three or four candidates.

After same discussion upon the subject, Mr. Van Buren, from the Twenty-first Ward, in making a motion to adjourn for one work, urged, in a spirited speech, the necessity of doing so in order to consult the public epinion of the people without distinction of party. It would not do for the Conven tion to make nominations in the face of an aproused public

PEOPLE'S UNION CONVENTION OF KINGS COUNTY.

CONFIRMATION OF THE NOMINATIONS. The People's Union Convention reassambled in the Governor's Room of the City Hall, yesterday afternoon, according to adjournment. Ex-Mayor S. S. Powell occupied the chair. The roll of Delegates being called, nearly all answered to their names, when the Chairman stated that he had received a communication from Mr. A. B. Capwell, the gentleman nominated for Assembly from the Second District, on Saturday last, in which he respectfully declined the honor, and at the same time took occasion to express sentiments favorable to the Union cause. The Delegates from the Second District were, on motion of Mr. Wm. M. Parks, authorized to fill the vacaucy, and in a few minutes thereafter the name of Mr. Richard J. Lawlor of the Twelfth Ward was preated by the Hon. J. S. T. Stranahan, and unanimous sented by the Hon. J. S. I. Stranama, and mammoda-ly confirmed amid demonstrations of applianse. Mr. Parks then stated that as the principal object for op-posing the adoption of the report presented hat Sat-urday had been removed, he would now request the gentleman who made the motion to reconsider (Mr. B. F. Mudgett), to withdraw it. Hereup rangesorn explanation was made by gentlemen who had opposed the report, and Republicans as well as Democrate view with each other in giving expression to strong Union and war sentiments. The roatd of Aldermen met last evening, the President, Mr. GENET, in the Chair.
The Auditor's Report of the third quarter of the present year was received, showing that the total amount expended on chy account was. \$1,00,059 28

A communication was received from the Mayor in A communication was received from the analyst in reference to the death of Judge Joseph Sherman Brownell, and appropriate resolutions were offered by Mr. Chiff eulogizing the virtues of the deceased, and providing that the Common Council attend the funeral in a body to-day from the late residence of Judge Brownell in Grove street. The resolutions were adopted, and on motion of Mr. Brady, a Commence of the present of the Chair to make

Judge Brownell in Grove street. The resolutions were adopted, and on motion of Mr. Brady, a Committee of three was appointed by the Chair to make the necessary arrangements. The Committee named were Mesers. Brady, Chipp, and Freur.

The report of the Committee on Finance, in favor of amending the ordinance appropriating \$1,000,000 for extending the Croton water works, and building the new reservoir, by adding \$900,000, making a total of \$1,900,000, was passed.

The following communication in reference to the stand of colors of the 1st Fire Zounves, was received from the Mayor:

from the Mayor:
Mayor: Mayor: New-York, Sept. 30, 1061.
To the Honorable the Common Council. To the Homorable the Common Council.

GENTLEMEN: I traismit herewith to your honorable body a copy of setter received by me, from Capt. Wildev, of the New York Fire Zonaves, relative to the stand of colors presented to that recliment by the Common Council. The statement of Capt. Wildev is doubly gratifying, as not only assuring the safety of the flags, but vindesting the gallant regiment to which he belongs from the suspicion of neglect. I presume the officers of the Fire Zonaves will take measures to obtain the colors in the hands of Capt. Vickars.

FERNANDO WOOD, Mayor.

Dau Sis: I see by the proceedings of the Common Council on Monday evening. Sept. 25, that you have received a communication from the Provoct-Marshail of Alexandris, stating that he had found the regimental day of the United Signatures, presented by the Common Council of the City or New York. I being capitain of this ting company, and the only officer of the regiment in the city, I deem it my duty to the regiment, to the city, and to myself, to state why and how these flags spoken of by the Prevost-Marshail got separated from the regiment. It will be recollected when we left New-York for the war, we had a number of flags presented to the regiment, some eight or rime in all of which only two could be carried into battle. The others were stored by the Inmented Elisworth—he taking charge of and storing them without the know-tendence the regiment crumed without them. But the flags presented search for the stored days, I was unable to find them; hence the regiment returned without them. But the flags presented regiment returned without them. But the flags prepeated search for the stored flags, I was unable to find them; hence the regiment returned without them. But the flags presented us by the Common Gooncil were with us always, and where the fight raged the hardest, there were seen our regimental flags—a proof of which is the bullet-torn flags, which can be seen at my house, No. 177 Spring street, and I flepe and trust to earry them in triumph to the end of the war, and return them to you, as we do now, as being in the thickest of the fight.

Yours truly,
JOHN WILDEY, Captain Co. I, 11th Reg't N. Y. S. V. To the Hon. FRENANDO WOOD, Mayor.

The following communication from the Mayor, in reference to the allotment system, was not reached, but will probably be acted upon at the next meeting

but will probably be acted upon at the next meeting of the Board:

Mayon's Office, New-York, Sept. 20, 1881.

To the Honorable the Common Conneil.

Gespringers: I begrespectially to call your attention to a subject of great importance at this time, involving not only the interests of the Corporation, but of those who have embated as volunteers from the City of New-York to sustain the Government. I refer to the provision made by the act of Congress, passed Joly 22, 1861, for the setting saids of a portion of the pay of volunteers in said of their families. By section 15 of that act, an adoment system is provided for, by which the family of the volunteer may receive such portion of the pay as he may request. The itonorable the Secretary of War, in pursuance of this provision, has devised as system for its practical execution, which will enable the volunteers to designate a trustee in the City of New-York, to become the recipient of this fund, and for its distribution as designated by the sold or himself. The War Department, however, has no authority over the selection of the trustee, or of the mode of distribution. These, it would seem, can only be furnished by some property constituted local authority. It is not to be preasuned that the volunteers themselves would either facure the expense or saree upon what could be regulate for this purpose. In the assence of such local arrangement, I fear the benefits of this excellent system would be into sloggether unless the Copporation steps in.

We have already provided a project scheme for the distribution of the Copporation fund to the families of volunteers, and in my judgment the application of the Same system to this fund would answer the papping of the Solder's Allotiments. The character of that gentleman will command the confidence of both three we be give and receive the money, and his knowledge of the solders funders him the proper officer upon whom to confer the trusteeship of the Solder's Allotiments.

The advantages to be desired from the allotinear system mu the Board: Mayon's Office, New-York, Sept. 20, 1961.

what is not paid to the Quartermaster or Sutter is squandered in an improper mainter.

Many of them who are exmestly desirons of dividing their pay with their families, are prevented from so doing by the harreds or inconvenience of making remittances, while it not universeently occurs that the attuation of the regiment cuts of communication with his household altogether. Thus large sums of noney, which, under the allotment system, would be expended in New York, and their way into the pockets of camp followers and army speculators, instead of giving the necessaries of life to those near and dura to the solder himself.

The paper herewith nanactived will explain fixelf. I think it will meet the case. I hope it may receive your immediate stiention and amention, that no time may be feat in giving to our addlers and their families the benefit of this truly wise and philanthrophe provision of the Government. All of which is respectfully assumitted.

FERNANDO WOOD, Mayor.

Whereas, By an order of the Secretary of War, issued in accordance with Sec. 12 of the Act of Congress of July 22, 1981, entitled "An act to authorize the employment of wollnesser," an all them system has been adopted and is new in force "by whice the handy of the volunteer may draw such portion of his pay as he ray request," by which system each company of volunteers is authorized to appoint an agent or trustee to receive such sluttments and derribute them to the families respectively; and, waveras, it is the daty of this corporation to affect every incitity in its power to those have men who have callsted for the defence of our Constitution and our Union, to accomplish a desire so near their hearts as the support and wave of their families; therefore

men who have callsted for the defense of our Constitution and our Union, to accomplish a desire so near their hearts as the apport and welfare of their families; therefore hereby cuther-fresheed. That the Controller be and he is hereby cuther-fred and requested to profier, in the name and on hehalf of the Mayer, Aldermen and Commonalty of the City of New-York, to the regiments and companies who have enlisted in this city, to act as their agent or trustee to receive such sums as the soldiers may allet, and distribute the same to such persons

and in such manner as they may request, in compliance with the system adopted by the War Department.

Resolved, That the Controller be and he is hereby authorized to employ such assistance as may be necessary to give full force and effect to the purpose of the foregoing resolution. The Board adjourned to Thursday next.

BOARD OF COUNCILMEN.

This Board met last evening, Morgan Jones, esq., President, in the chair. Petitions were referred: Of Engine Company No. 12, for a new location; of the 12th Regiment, for a new drill-room; of Ann Crowley, whose husband was lost in the Croton Aqueduct, asking a dona-

Resolutions were adopted that the Controller re-Resolutions were adopted that the Controller report the amount of stock taken of the \$250,000 authorized in July, 1861, for the Central Park; that the Controller advertise for a temporary location for Engine Company No. 36.

Resolutions were referred that The Herald, Trigune, Times, and Metropolitan Record be created Corporation newspapers.

The proposition to pave the upper part of Broadway and lower part of Courtlands street with trapblock pavement, led to lengthened debate, but no progress was made.

The Mayor, in a communication, recommended that the Controller be directed to profiler, in the name of the City Government, its assistance to volunteers at the seat of war in alloting to their families portions of their pay, which was referred to the Committee on National Affairs. (For message and documents are proceedings of Beard of Alderand documents, see proceedings of Board of Alder

The Board concurred with the Aldermen in resolutions of regret at the death of J. Sherman Brownell, and appointing Messrs. Keech, Ryan, and Brice a Committee on the part of the Councilmen to represent that Board in the funeral arrangements. Adjourned to Thursday.

WINTER GARDEN.

Mrs. John Wood appeared to great advantage at this brilliant theater, last evening, in a sketch of the olden times of the drama, as "Anne Bracegirdle." She personified the fickle moods of the actress and the wa,"m sentiments of the woman with charming spirit and tact, and showed herself as consummate an artist in reality as the most gifted creatures of the profession are by tradition. The applause of the crowded house was enthusiastic, and full honors were done Mrs. Wood before the curtain.

Young New-York reserved its a cost boisterous plandite, however, for the Spanish dancers: Senora Isabella Cubas and Senor Juan Zimenes, who achieved a remarkable successe. They create a furor for the ballet, which has been a sorry burlesque in this country since the Ronzani troup flashed and faded before an insensible public. All the witchery of a warm beauty and a fiery activity is exerted the Senora, and she realizes that dream of Southern voluptuousness which has so often been travestied in our sight by bloodless nymphs and sternly practical fairies. Eloquent with passion as her motions always are they are also never offensive to good taste. Young and old succumbed without a struggle to the dashing beauty, and a sort of rapture exercised the audience. The union of Thalia and Terpsichore is most happy and auspiclous of a week of excitements at the Winter Garden. Good dancing is so really an artistic treat that the public will gladly seek relief in the bright beauty and grace of the Senora Cubas from the tame and spiritless displays of late, in which indifferent Nature seemed to contend with very indifferent Art in the calming of all the more lively emotions of the soul. The shy Terpsichore is fairly caught at last, and the management of the Garden will command her most winning arts, while the dry bones of blase Young America may be expected to stir with a new sensation. Choreographic delights have up to date been monopolized by the low concert balls of Brondway. In this fitting temple of beauty they may take a new and higher meaning, and perhaps expand into a volume the unwritten or illegible page of the " poetry

of motion." These dancers have a good European reputation, and the indersement of last evening was one of the most spontaneous ovations we have witnessed this season, tolerably barren as yet of strong appeals to taste or sensibility.
